

Dear Yania Taji,

Congratulations! Your application to the **World Hearing Day Small Grants Program** for the event entitled:

Hearing Horizons: Expanding Access, Changing Lives

hosted by

LEEYO MULTIPURPOSE SOCIETY

has been selected for this award and recognition. Your outstanding application was selected from almost 400 applications for this prestigious award. Each grant application was reviewed and selected by our panel of global hearing health experts. Your planned activities support the 2025 World Hearing Day theme of **“Changing Mindsets: Empower yourself! Make ear & hearing care a reality for all!”**.

The World Hearing Day Small Grants Program began in 2019. The **Coalition for Global Hearing Health** has partnered with the **World Hearing Forum of the World Health Organization** to administer this highly successful program. Since its inception, the WHD Small Grants Program has provided 250 grants to organizations in 70 different countries around the world. Your inspirational activities on World Hearing Day will contribute to this legacy of raising awareness and empowering others to improve hearing health.

When you hold your activities on March 3rd, be sure to take photographs (and obtain the appropriate permissions to share these images), as these images will be highlighted in the annual World Hearing Day Report. After your event, be sure to report your activities on the World Hearing Day portal (<http://www.worldhearingday.org>) by March 15th, 2025. **WHD Small Grant awardees are required to report their activities on this site.** We will contact you in late March to inquire about transferring the funds to your organization. Funds are then distributed by the Coalition for Global Hearing Health via bank transfer or PayPal.

Thank you again for your hard work every day to make *hearing health a global priority* and particularly for your inspirational activities on March 3rd.

Let's all Celebrate World Hearing Day!

Congratulations on behalf of:
